ARCHIVE OF CIDER POMOLOGY

The Archive of Cider Pomology provides a central depository for documents, books, images, maps etc which describe and explain the world of cider.

**The Archive is supported by
THE NATIONAL ASSOCIATION
OF CIDER MAKERS**

ARCHIVE OF CIDER POMOLOGY

The Archive provides storage for records on orcharding, cider and perry production and related topics. We hold a collection of oral histories of growers and producers, and some early books of orchard planting in Herefordshire, Gloucestershire and parts of Wales.

Technical applications in orcharding

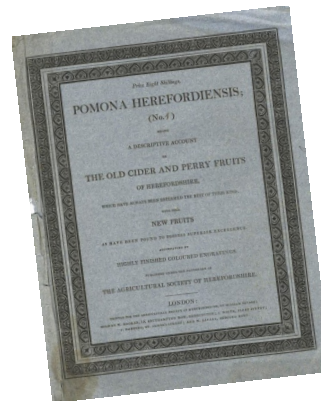

The Archive offers a unique opportunity to access documents and reference books ranging from early images of cider apples and perry pears to

Image Paul Brock

insect life in the orchards

19th century orchardists

Coopers and Cask repairers

to social history.
